Subject: Notes from the June 15, 2010 Call to Discuss the Arsenic Health Effects Public Meetings and Training

---

On the June 15, 2010 call were:

IHS - Brandon Beckman, Marcus Felter  
BIA - Wendell Honanie, Melvin Todacheene  
HUD - Cristal Quinn  
USEPA - Bruce Macler, John Hamilton, Bessie Lee

The July 14 through 16, 2010 dates for the public meetings still need to be confirmed. Brandon has been in touch with Susan Bigley at the Hopi Health Care Center (928-737-6144, e-mail at [susan.bigley@ihs.gov](mailto:susan.bigley@ihs.gov)). Susan is the person that we will be working with to organize any presentation at the Health Care Center with the health care professionals. Every Wednesday from 8:00 – 9:30 a.m., the health care professionals have training. Alternative days and times for the health care professional training is any week day from 4:30 to 5:30 p.m. This alternative time is not ideal since less health care professionals would be available in the afternoon.

Will the clinical people be providing us technical information or will they just listen to what we have to say? Bruce will lead the discussion with the clinical people. Bruce will like to first get an idea from the health care folks of the concerns or areas they want more attention for the discussion. It would be better if Bruce is able to get some questions from the health care folks ahead of time.

Wendell indicated he sent letters to the BIA schools about the upcoming public meetings on the health effects of arsenic.

Proposed schedule for the health care professional presentation and the public meetings: 30 minutes presentation by Bruce, 15 minutes presentation by Brandon, and 30 minutes for questions and answers.

The update of the HAMP presentation still needs to be done.

IHS Project E-37 was approved by the Hopi Tribal Council on June 15, 2010. This is for the first part of Phase I of the HAMP, which will be funded by USEPA.

**Next Call** – Our next call will be on Thursday, July 1, 2010 at 10:00 a.m. Arizona Time. Bessie will provide a call-in number.

**FOLLOW-UP ITEMS:**

For Bruce Macler:

- Contact Susan Bigley of IHS at the Hopi Health Care Center to get an idea of what the health care professionals would like discussed/presented in terms of arsenic.
- Complete assessment before July 11, 2010.
- Develop a draft health effects handout by June 30, 2010.

For Brandon:

- Forward disease rate quantification information, if available, to Bruce by June 28, 2010.
- Develop a HAMP handout by June 30, 2010.

For Lionel:

- Forward arsenic information, if any, for private and livestock wells in the First and Second Mesa areas to Bruce by June 28, 2010.
- Forward information on the plants raised and consumed to Bruce by June 28, 2010.

For Bessie Lee:

- Confirm with Lionel before the June 24, 2010 call (with BIA to discuss the arsenic mitigation issues) the dates for the trainings.
- Confirm with Lionel before the June 24, 2010 call whether WRP would like one or two public meetings.
- Talk to Lionel about the need for an interpreter for the public meetings.
- Talk to Lionel about the need to provide translated versions of the handouts.

If you have any comments to the above notes, please let me know ASAP.
